

Our Site

The Care for Carers site is in the heart of Deal town centre, a short walk from the train station and beach. The site hosts a garden area which is made up of two levels; the top level has the Rustic House and a garage, with the lower level having the Guest House, and also the main house where the meals will be provided. A metal staircase joins these two levels, which, unfortunately means that the site is not suitable for wheelchairs. We have an allotment area which we encourage guests to use and support. Unfortunately, there is no parking on site for the guests of Care for Carers.

The “Modern” Lodge

This is purpose-built suite and has a large living area downstairs with a small kitchenette area and an en-suite shower room. The bedroom is in a small dormer which is reached by climbing up a ladder. If you would prefer there is a sofa bed downstairs in the living area (both these beds are doubles - 4 foot 6 inches). There is floor to ceiling windows in the living area allowing lots of natural light and views of the garden area and also a log burning stove in the main room.

The “Rustic” Lodge

This is a former Summer House that has been extensively extended and modified. It is fully insulated and double glazed and also has a small deck to the front. The main living room hosts a sofa, chair and a log burner. There is a small double bed (4 foot), and kitchenette area. The toilet and shower are located in a separate building 5 metres away. This is a very cosy place to stay and was used by the owner while the house was being built and has been completely refurbished since then.

Care for Carers

This leaflet should give you more information about the Care for Carers lodgings, site and services we can provide.

If you have any questions about the residence or Care for Carers, please email: peter.dtm@btinternet.com and thesmallocietycharity@gmail.com
